## Another Murderer Run Down.

Henry Lancaster, who killed Chief of Police Bud Wilmoth at Womelsdorff, W. Va., two weeks ago, has been captured after a desperate chase through the mountains. The bloodhounds were repeatedly put on and taken off of his trail and all hopes of his capture were abandoned until Wednesday, when the negro was found near Montrose and he was captured there by twenty men yesterday. A large reward was offered for him, dead or alive. He served several terms in prison.

## Silver Sold to Mexico.

Solomon R. Guggenheim, who is at Denver looking after the interests of the Amer ican Smelting and Refining Company, of which he is an official, admits that the company has just sold 20,000,000 ounces of silver to the Mexican government, in addition to 5,000,000 ounces recently delivered. He declared that the first sale increased the market price of the metal two or three cents, and predicted a still greater rise as a

### THE LEPER COLONY

COMMANDER SCHROEDER'S LET-TER TO NAVY DEPARTMENT.

Victims of the Disease to Be Gathered Together at Tumun Bay, Island of Guam.

Commander Seaton Schroeder, naval governor of the Island of Guam, has informed Acting Secretary Darling, under date of June 12, that the leper colony which he proposed to establish on Tumun bay would be ready for occupancy July 1. When the United States first took charge of the Island of Guam it was supposed that leprosy had ceased to exist on the Island. The old leper colony which had been maintained at Pago by the Spanish authorities had been discontinued several years before. Within the last year, however, lepers were discovered on the island, and some six months ago Gov. Schroeder made an investigation which developed the fact that the hopeless victims of this dread disease had been secreted by their friends in various parts of the island. He thereupon decided that the welfare of the natives demanded that they should be gathered together and secluded from possible contact with the other inhabitants. His letter to the department telling of

the establishment of the new leper colony "Having reference to my letter, No. 114. of April 5, relating to the establishment of a leper colony on Tumun bay, I have the honor to report that a contract was let for the construction of a number of small houses, with thatch roofs; a hospital building, mess room, kitchen and chapel. These are finished and ready for occupancy. A sewered latrine is also nearing completion. also a modest residence for the superin-tendent and two watchmen, and a small

plot within the inclosure has been defined for a cemetery and consecrated by the padre. 2. Although it is expected that the unfortunates will be able to move in before the end of the month, July 1 has been fixed as the date upon which the rigid quarantine will be established and regulations put in force. A general order has been issued defining the institution as Tumun colony and prescribing its limits and the laws regarding it; the translation of this general order into English is not yet completed. "3. It is thought that the number of lepers who will go immediately to the colony will approximate to twenty-five. The regulations laid down are considered preventive of any possibility of a person being sent there upon a mistaken diagnosis. It is believed that at the time of the existence of the colony at Pago many were placed there who were not suffering from eprosy, but from other forms of ulcerating

NELSON IN JAIL.

Declares He Had No Intention of Forfeiting Bond.

remaining far below the number restrained

at Pago ten years ago."

John Nelson, indicted for burning several gambling houses in Jackson City, who forfeited his bond of \$6,000 in the Alexandria county court yesterday by non-appearance, is today locked up in the county jail on Fort Myer Heights. After the proceedings in the court yesterday, in which Judge J. M. Love issued a capias for the arrest of Nelson as a fugitive from justice, and entered an order forfeiting his bond. Messrs. William Duncan and John Harlow, his bondsmen, started out to look for the accused. Finally it was ascertained that Nelson was in Rosslyn. Deputy Sheriff Harry Palmer, armed with a bench war-rant, went immediately to that place and took the man into custody. He was lodged in jail about 5 o'clock. There he declared he had no intention of forfeiting the bond. but said that he had been mistaken as to the date of the hearing.

According to arrangements made yester-day, Judge Love will convene his court again next Monday morning. It is probable that some action will then be taken in Nelson's case, although just what will be done is not yet clear. If the prisoner had taken any steps after the developments of yesterday to secure counsel for his defense

it is not generally known. The question as to whether the court will exact the \$6,000 of his sureties since the acexact the \$5,000 of his sureties since the ac-cused has been placed in custody has at-tracted considerable attention, especially with those most intimately concerned. While Judge Love, of course, will make no statement on this matter for publication, it may be safely assumed that the court will excuse the bondholders with the payment of costs, which will amount to a trifling sum. According to law, Messrs. Harlow and Duncan are responsible for the pay-ment of the entire amount, but in view of the circumstances it is said the obligation is not likely to be required.

From statements made today by an attorney prominent in connection with the case, it seems highly improbable that Judge Love will again allow Nelson his liberty before he is brought to trial.

NEELY'S APPLICATION.

He Wants Money Taken When He Was Arrested Returned.

C. F. W. Neely, who was convicted of defrauding the Cuban postal funds and afterward granted amnesty by the Cuban legislature, has applied to the Attorney General to be reimbursed for the money taken from him at the time of his arrest, amounting to \$6,234. This money was sent to Cuba as an exhibit at the trial of Neely, and was returned by the military government to the War Department. Secretary Root wrote a letter to the Postmaster General informing him that the money had been returned and was held to be disposed of at the latter's direction. The Postmaster General has not accepted the money, and it still remains in the possession of the Secretary of War. It is not likely to be turned over to Neely or his attorneys for some time to come, if at all, as the War Department is now holding this money until an adjustment is made and a balance struck between the Cuban government and the late military government regarding financial af-fairs. It is expected that with the enlargement of the bureau of insular affairs the accounts will be eventually computed and a settlement reached.

In this connection it is stated that the United States government is withholding \$5,000 from the American Trust Company to cover outstanding checks drawn on that company for which the United States is responsible, and which were not presented and paid for until some time after the military government turned over Cuba to the new Cuban government. This and other questions of financial balances are being computed in the War Department, and, it is expected, will be adjusted within a few months, when all the vouchers, checks and accounts are presented and settled.

Their Flat Boat Upset.

While rowing across the Ohio river last night just below Pittsburg, Mrs. Maggie Miller and Miss Bridget Madden, both nineteen years of age, were drowned. The women were in a flat-bottomed boat, and getting into the waves made by a passing steamboat became frightened and steered directly in front of another boat going in an opposite direction. Their boat was smashed, and both women were carried down and under the steamer. When the bodies were recovered they were clasped in

The Coming of the Chinese Prince:

While it is believed there will be no official reception tendered to Prince Chen, a member of the Chinese imperial family, who will arrive at New York on the St. Paul tomorrow, the visitor will be welcomed at the pier by Mayor Low's secretary, James reents, and predicted a still greater rise as a gesult of the late deal.

B. Reynolds, who will represent the mayor. A detail of mounted police has also been ordered to meet the prince. Accompanied by Mr. Reynolds and the police escort, Prince Chen will go to the Waldorf-Astoria, where he will stay while in the city. Monday the prince is expected to visit the city hall. There he will be welcomed by Acting Mayor Forces. WASHINGTON IN 1903.

ALEXANDRIA AFFAIRS

BUSINESS CONSIDERED BY THE SCHOOL BOARD LAST NIGHT.

Entire Corps of Teachers in City Re-Elected-General and

Personal.

Evening Star Bureau, No. 701 King Street, Bell Telphone No. 106. ALEXANDRIA, Va., August 8, 1902. The regular August meeting of the city school board was held last evening in Peabody Hall. In the absence of President Francis L. Smith, Mr. J. T. Sweeney acted as chairman. Several reports were read by the clerk and approved. A number of accounts were audited and other routine business was transacted. Monday, September 1, was fixed as the date for beginning the annual issuance of permits for admission to the public schools. The most important business transacted was the election of

teachers. Without exception the entire

corps in the four schools of the city was

re-elected.

The schools will open the coming session under auspicious circumstances. It is expected that there will be a large attendance of scholars. The additional room which was established last year has been made permanent, the necessary appropriation having been secured. During the vacation a number of repairs and improvements have been made on the buildings and premises. Examinations of persons desiring to teach in the public schools of Alexandria county are being conducted in the senior department rooms of the large public school building at Ballston. So far those coming forward for examination are Miss Minnie Keyes of Fairfax county and the following colored applicants: Misses Sophia A Slaughter and Rose H. Wright of Washington, D. C.; Priscilla Wright of Halifax county, Va.; Maria V. Butler of Prince William county: Mary J. Tancil and Anna Jackson of Alexandria city, and Messrs. E. C. Hoffman and Thornton H. Gray of Alexandria county.

The examinations will be concluded, it is nderstood, today, and the public schools

September. Mayor Simpson Imposes Fines. When Mayor Simpson opened the session of the police court at the usual hour this morning Samuel Otis occupied the dock on the charge of assaulting Ida Evans. The latter appeared against Samuel and told a plaintive story. She had treated the prisoner with kindness, she said, but he had smitten her with his fist, which conduct, she asseverated, had passed the limit of her forbearance. The accused was assessed \$10. The charge of being drunk and disorderly appeared against the name of Sam'l Beard, but there were extenuating circumstances, and the case was dismissed.

A special session of the court was held at 6 o'clock yesterday evening for the trial of Sylvester Quail on the charge of being

of Alexandria county will open their next session about the middle of the month of

disorderly and fighting on the street. The fine imposed was \$10. Brief Mention.

A movement is on foot among Christian Scientists of this city for the establishment of a church of that faith in Alexandria. Arrangements have been made for services every Sunday morning at 11 o'clock and every Wednesday evening at 8 o'clock at 903 Cameron street.

Col. K. Kemper, superintendent of the city public schools, today completed the examination of applicants for the position of school teacher. Several applicants took the examination The funeral of Mrs. Jane E. Coleman,

whose death occurred Wednesday, took place this afternoon from the home of her husband, Mr. George S. Coleman, at the corner of St. Asaph and Princess streets. Interment was made in Bethel cemetery. Miss Agnes Robinson and Mr. William Carr, both of this city, were married Wednesday evening at the home of the bride, on Upper Duke street.

Australian-Canadian Combine.

The question of organizing an Australian-Canadian shipping combine for a service between Canada, England, Australia and South Africa, to compete with the American combine organized by J. Pierpont Morgan, was again the subject of a prolonged conference yesterday in London between the Australian premiers and Sir Wilfrid Laurier and other Canadian ministers.

Ending Tour Around the World. The Viscount de Clinchamp, who is the French member of the party headed by Harry de Windt, which set out from Paris on December 19, 1901, for an overland trip around the world, sailed from New York yesterday for home on the steamship La Bretagne. The viscount's arrival in Paris will complete his trip, and he will be the second member of the party to arrive home. The De Windt party started out with four members. The two who are still traveling are De Windt himself and another Englishman named Harding.

Tragic Mystery in Chicago.

Lying in the long grass of a vacant lot and but a few feet from the cable track of the State street line, on which thousands of people passed the place every day, the dead body of a woman was found last night in Chicago. The corpse was entirely destitute of clothing and none of the garments were found in the vicinity. The body was in such condition that it was in possible to tell whether or not there were any marks upon it which would indicate violence. The police are firmly of the belief that the woman was murdered and her body placed where it was found.

Survey of the Hartford Ordered.

The Navy Department has ordered a survey of the training ship Hartford, at New York. The Hartford will probably need a pretty general overhauling. She has been in constant service as a training ship for two years. Starting from Puget sound. she sailed around Cape Horn and has since made several trips to Europe, as well as cruises in South American waters.

Report of Capitol Police.

The annual report of Captain J. P. Mcgrew of the force of police employed to guard the Capitol building has just been made to Sergeant-at-Arms Ransdell of the Senate. The report shows that the seventythree Capitol policemen made a total of 214 arrests during the year. Drunkenness, vagrancy and trespass constitute the causes of a majority of these arrests.

Spanish Political Outlook. It is a subject of gossip in political cir-

cles that Senor Sagasta is offended with the conservative influences to which King Alfonso is now subjected, particularly during his majesty's present tour, which have resulted in the ministers of the crown being deprived of all initiative. It is believed in some quarters, however that even should Senor Sagasta resign the liberals would remain in power, under Senor Moret, president of the chamber of deputies. Celebrations at St. Johns.

The British cruiser Charybdis, the sloop

Alert and the special service steamer Columbine, together with the French cruiser Isly, arrived at St. Johns, N. F., yesterday to participate in the approaching coronation celebrations. Commodore Montferrand of the Isly and Capt. Montgomeric of the Charybdis, with officers of their commands, will attend the functions to be given on shore. The crews of the French and British warships will land and give a joint review and a sham battle.

has furnished the State Department with the following account of a newly invented fire pump recently tested in Rouen: "An experiment was made last evening

at the Hotel de Ville with a new fire pump

invented by Mr. Robert Lefebre, captain of the Rouen fire company. This pump is so small that only a very light two-wheeled cart with one horse is necessary to transport it. The dynamo is so constructed as to be run by a current from the street car or electric light wires, and is brought into contact with them by means of a hooked pole or rod. The pump furnishes a pressure capable of throwing a jet of water. with a force equal to that of a steam pump, to the height of over 100 feet. It also has the advantage of being placed quickly in action wherever there is an elec-tric current. For this operation it took only three minutes in yesterday's experi-ment, whereas to get a steam pump up to the same pressure takes fourteen minutes.'
